

Amendments to the Claims

This listing of claims will replace all prior versions and listings of claims in the application:

Listing of Claims:

1. (Currently amended) An enclosure for storing one or more guns, the enclosure including an interior compartment defined by a top wall, a bottom wall and one or more side walls, the enclosure comprising:

at least one ~~cabinet~~ panel having a first surface and a second surface, the ~~cabinet~~ panel being slidably positioned within the interior compartment; and

a gun rack coupled to the first surface of the ~~cabinet~~ panel, wherein the ~~cabinet~~ panel is selectively moved into and out of the interior compartment.

2. (Original) The enclosure as recited in claim 1, wherein the gun rack includes an upper barrel receiving portion and a lower lip.

3. (Original) The enclosure as recited in claim 2, wherein the barrel receiving portion further comprises a plurality of recesses for receiving a barrel of a gun.

4. (Currently amended) The enclosure as recited in claim 1, further comprising at least one storage compartment coupled to the first surface of the ~~cabinet~~ panel.

5. (Currently amended) The enclosure as recited in claim 1, wherein at least one rail is coupled with the second surface of the ~~cabinet~~ panel, wherein at least one track is coupled to the side wall of the enclosure, wherein the track and the rail are slidably coupled with one another to allow the ~~cabinet~~ panel to move into and out of the interior compartment.

6. (Currently amended) The enclosure as recited in claim 5, wherein the ~~cabinet~~ panel is pivotally coupled with the rail thereby allowing ~~cabinet~~ panel to rotate relative to the enclosure.

7. (Original) The enclosure as recited in claim 5, wherein the track is coupled to a protrusion that extends from the side wall of the enclosure.

8. (Currently amended) The enclosure as recited in claim 7, wherein the second surface of the ~~cabinet~~ panel is positioned at a distance from the side wall of the enclosure.

9. (Currently amended) The enclosure as recited in claim 8, further comprising a mounting bracket attached to the side wall of the enclosure, ~~the~~

~~mounting bracket being configured for receiving~~ and a plurality of barrel receiving pieces that are coupled to the mounting bracket.

10. (Currently amended) An enclosure for storing one or more guns, the enclosure including an interior compartment defined by a top wall, a bottom wall and one or more side walls, the enclosure comprising:

at least one ~~cabinet~~ panel having a first surface and a second surface;

at least one rail pivotally coupled to the second surface of the ~~cabinet~~ panel;

at least one track coupled to a protrusion formed in the side wall of the enclosure, the protrusion extending outwardly at a distance from the side wall, wherein the track and the rail are slidably coupled to one another, and wherein the second surface of the ~~cabinet~~ panel positioned at a distance from the side wall of the enclosure; and

a gun rack coupled to the first surface of the ~~cabinet~~ panel, the gun rack including an upper barrel receiving portion and a lower lip, wherein the ~~cabinet~~ panel is selectively moved into and out of the interior compartment.

11. (Currently amended) The enclosure as recited in claim 10, further comprising at least one storage compartment coupled to the first surface of the ~~cabinet~~ panel.

12. (Original) The enclosure as recited in claim 10, wherein the barrel receiving portion further comprises a plurality of recesses for receiving a barrel of a gun.

13. (Currently amended) The enclosure as recited in claim 10, further comprising a mounting bracket attached to the side wall of the enclosure, ~~the mounting bracket being configured for receiving~~ and a plurality of barrel receiving pieces that are coupled to the mounting bracket.

14. (Currently amended) An enclosure for storing one or more guns, the enclosure including an interior compartment defined by a top wall, a bottom wall and one or more side walls, the enclosure comprising:

at least one ~~cabinet~~ panel having a first surface and a second surface;

a gun rack coupled to the first surface of the ~~cabinet~~ panel; and

means for selectively sliding the ~~cabinet~~ panel into and out of the interior compartment.

15. (Currently amended) The enclosure as recited in claim 14, further comprising means for pivoting the ~~cabinet~~ panel relative to the enclosure.
